## Chinese-speaking Saints and Contacts

In the past year, even we were not faithful enough to cooperate with the Lord's move, the Lord still blessed His Body. Among the Chinese-speaking saints, the main blessing is the raising up of younger serving ones.

Three years ago, the church passed through some difficulties under the Lord's leading. At that time, the Lord's testimony was mainly borne by some older and faithful saints, but most of the young working adults and middle-age saints were lost. However, the Lord brought many young people into His church in the past year, including young working adults and some college students. They started to function more and more in the church, not only serving in church affairs, but also preaching the gospel actively, and prophesying during the meetings. Through these activities many saints were greatly

encouraged. Besides young people, the Lord also has strengthened the middle-aged saints. Many families came together for blending and fellowship. Through these gatherings, the feeling of being members one of another has deepened, as well as the willingness to be entrusted by the church and to serve in one accord.

In these coming days, we look to the Lord to add and strengthen these two groups of brothers and sisters, especially the raising up of healthy families to serve with us. We are also seeking the Lord's leading in the matter of increasing to new districts and group meetings, in order to let more saints function accordingly, to gain proper multiplication and spreading of the church by practicing vital groups according to the God-ordained way.
