Update on the young people

Most of our young people attended the SSoT in Ancaster in August, and returned quite happy and overflowing from their experience of the Lord, and their blending with other young people of Ontario. Many thought that SSoT 2011 was more enjoyable than last year's. Our prayer is that they would continue pursuing the Lord in His Word, and seek the Lord continually as they grow in life.

Since their return to Montreal, our Saturday young people fellowship has been much earlier, mainly 3/3:30 to 6/6:30 p.m. ending with a meal together. We've started having the meetings in the homes of parents and community saints. This is in keeping with our ongoing burden to encourage the blending of the young people with the parents, college students, and community saints. We thank the Lord for the saints who have opened, and continue to open their homes for this purpose.

Praise the Lord that He has added four new sisters to the young people this term, and also a few new serving ones. We welcome them to enjoy the Lord and to grow together with us all. We also rejoice that more saints have expressed their desire to shepherd the young people during the week. Two Lord's Days ago, the young people and their parents, the shepherding saints, and the serving ones gathered together at a home in West Island. This time of fellowship and feasting was planned for the new and returning young people to blend and mingle with everyone there. We had an enjoyable time.

During that evening of blending, one of our young brothers announced his decision to be baptized, and so the baptism took place last Lord's Day. We rejoice with him in taking this important transfer. May he continue to seek the Lord and experience His resurrection life.

As for the young people Lord's Day service, we are continuing with the Gospel of John, studying the Word with the footnotes. A few more saints have joined our serving team – we praise the Lord for His continued guidance and direction in the carrying out of His work to accomplish His purpose.
